CONSTRUCTION MACHINERY

İstanbul - 1979

BİLEN is an industrial company founded in 1954, working as a supplier of products and services for automotive, construction machinery, power generators and armored vehicles for three generations. Thanks to the broad experience of a long-term organization, its design, testing, prototyping, production abilities and its unique work atmosphere are the main reasons of being a preferred partner by its customers. BİLEN has the ability to offer co-design, test, measurement and on-time delivery of a wide range of parts to its customers at home and abroad, with a team that believes the power of experience is as vital as a manageable supply chain.

Since 2014, BİLEN delivers its products to many locations all over the globe from its new and modern plant located in Düzce Industrial Zone, located midway between Istanbul and Ankara.

BİLEN, ticari hayatını nesillerdir sürdüren bir sanayi kuruluşu olup, yurtiçi ve yurtdışında otomotiv, iş makinası, traktör, jeneratör ve zırhlı araç üreticilerine egzost ve emisyon kontrol sistemleri, her türlü malzeme, çap ve kalınlıkta bükümlü borular, ürün/sistem tasarım ve geliştirme konularında tedarikçi olarak hizmet vermektedir. Uzun soluklu bir kuruluş olmanın getirdiği köklü tecrübe ile iş yapma teknikleri ve kendine has çalışma atmosferinden kaynaklanan çalışma disiplini müşteriler tarafından tercih edilmesindeki başlıca sebeplerdir. Yönetilebilir bir tedarik zinciri ve üretim sistemi kadar, bilgi birikiminin gücüne inanan ekibiyle Türkiye'nin bir çok köklü kuruluşuna parça tasarım, test- ölçüm, hızlı prototipleme, seri üretim ve zamanında teslimat hizmetlerini geniş bir ürün çeşitliliğinde sunabilmektedir. BİLEN, 2014 yılında taşındığı Düzce Organize Sanayi Bölgesi'ndeki yeni ve modern fabrikasından Türkiye'nin ve Dünya'nın bir çok farklı noktasına sevkiyatlarını gerçekleştirmektedir.

Düzce - 2017
